Important: Please read:

Recent years have seen a number of inferior products appear among school supplies. While these products are often initially less expensive, their hidden cost shows up in how quickly they are used up or in the difficulty students have in using them. These products tend to frustrate rather than help so I will be purchasing the items below and recovering the costs from parents at the beginning of the year. These items would normally be part of the above supply list:

-pencils, 2 bins, fine tip sharpie, white boards, white board eraser, Math binder, etc.

Approximate cost will be \$15-\$20.00.
